To Whom It May Concern:

It is with great pleasure that I am recommending Mister Thanassis Mantzoros to you.

I am at present time a Subcontracting site representative for the Courseulles project, monitoring the complete fabrication of 64 Casings.

I hold this position as part of Saipem staff and am based in Volos, Greece for this specific Project.

M Thanassis and I started this Project in April 2022. I was during the full and complete time of his assignment my own manager and he was under my supervision. His assignment ended July 2023.

Thanks to M Thanassis experience and qualification for Blasting & Painting related scopes, I was able to verify by myself his great abilities to anticipate, plan and confirm any concern even before they could potentially happen.

Casing's scopes were many and ranged from:

- Base monitoring the reception of painting and the attached thereof of the QC related activities
- Documentation review of any delivered items
- Blasting & painting application inspection and supervision
- Monitoring of all steps of surfaces preparation before blasting to be sure the painting application is accordance with the specification
- Inspection review
- Reporting of all activities blasting & painting (Our requirement was a daily report & a weekly report)
- Opening and writing of any NCR that would nevertheless occur during the work and under his watch
- Participating to Production to engage Subcontractor into potential review on their work or way forwards for any generated delays
- Monitoring the closure of the punch list before the FAT before load out of the casings

Thanassis, as he appears would be of great asset to any Inspection scopes on a Project. I have found him dedicated, volunteer and of strong will in front of situation not always easy to manage and messages not always so easy for Subcontractor to hear.

His competence and experience during the Courseulles remain undisputed and his anticipation on work progress have been of great help to me as a manager in seat but also of great support to the full and complete scopes undertaken by our Subcontractor.

I believe that Thanassis will be an excellent fit for your project program, he has been nothing short of an exemplary inspector.

If you have any further questions, feel free to contact me at and I'll be happy to answer any questions you have. See my contact above.

Sincerely,

A.ZERROUKI
